> Attached is the new National Strategy for the COVID-19 Response and Pandemic Preparedness plan (198 pages) that serves as the foundation for the "COVID-19: Biden-Harris Plan to Beat COVID-19" that was featured in a short address by President Biden and was made available at the WhiteHouse.gov. The pdf of the complete plan is attached. Also I've lifted key points from the total document and condensed the main take home messages into six pages. I did my best to keep the actual wording, but in some cases I removed extraneous words and sentences. Just wanted to offer the Cliff Note version. It's a short read and will offer some new insights into what might be coming. Plans that are particularly important to our role in protection our workforce are highlighted.
